Rubén Luengas entrevistó a Michel Chossudovsky, académico y periodista, sobre cómo la crisis de salud ha sido utilizada por el poder global para apropiarse de la industria mundial y hacerla funcionar en sus propios intereses.

Según Chossudovsky, la receta de los poderosos para lograr esto ha sido crear una crisis económica mundial que les permita intervenir y controlar las grandes industrias. Esta entrevista sin censura ofrece una visión crítica sobre la relación entre la crisis de salud y la toma de control de la industria mundial.
